

**Marshall-Nemaha County Educational Services
Cooperative Speech Sound Development Guidelines Chart**

Each age above shows when each speech sound is mastered (i.e., produced with an average of 90% across all parts of the word in conversation). Treatment begins one year after the sound should have been mastered

Age:
2-3 years
4-5 years
5+ years

Intelligibility Level:
50%-75%
75%-90%
90%-100%
